

## Line Card of Technology Partners and Services • 2024

Effective 3.20.2024

### Navitas Solar

GEOSOL is the exclusive North American distributor for Navitas Solar—a top-ten Indian solar panel manufacturer specializing in solar PV modules, solar kits, intelligent solar lighting, pumping solutions and solar storage solutions.

### VNT

GEOSOL is the exclusive North, Central, and South American distributor for VNT electric vehicle charging solutions. VNT specializes in advanced solar combiner and monitoring boxes, along with cutting-edge telecom and fire safety solutions, emphasizing sustainability and efficiency in energy management.

### Aircosaver

A retrofit energy saving device that makes older A/C units more energy efficient and cheaper to operate.

### AP Systems • Altenergy Power

Solar microinverters and rapid shutdown devices for the solar market.

### Briggs & Stratton

Affordable whole house residential generators.

### Canadian Solar

Manufactures solar PV modules, energy storage systems and runs large scale solar projects.

### COSPOWERS

Professional battery and energy storage system & micro grid provider.

### DuroPro Coatings

Corkspray and coating products for building envelopes that restore, protect, and insulate.

### Enphase

Solar micro-inverters, battery energy storage, and EV charging stations, primarily for residential customers.

### Evian Charge

EV chargers, one charger—two outputs. Level 2 EV charging stations.

### ExaWatt USA

Exclusive line of American-made / Southeast Asian-made residential and commercial solar panels.

## Fronius

Photovoltaics, battery charging technology and innovative welding.

## Frontier Energy

Advanced energy efficiency consulting services with complete reporting and data analytics.

## Fox ESS

Fox ESS is a global leader in the development of inverter and energy storage solutions.

## Generac Power Systems

Manufacturer of backup power generation products for residential, light commercial and industrial markets.

## Go Zero

Exclusive contractor energy business-in-box platform.

## GTF Financial

GTF provides financing in the green technology space with an established network of solar and home improvement lenders providing simple, affordable and expedited financing options.

## GSL Energy

Complete line of energy storage systems including batteries and inverters.

## GripRac

Unique solar racking system for fast, precise installation by pre-assembled components.

## GSTAR Solar • Talesun • HT-SAEE • Phono

GSTAR is a modern high-tech solar module manufacturing company for global OEM brands.

## Ironridge

Solar racking system for fast installation by pre-assembled components.

## Lumin

Energy management platform brings intelligent control to any electrical distribution panel.

## LuxPower Tek

Quality hybrid inverters with global approvals at competitive pricing.

## Miranda

Wastewater treatment alternative to septic for domestic wastewater applications.

## Mitrex

Revolutionary building-integrated photovoltaic (BIPV) system. Solar facades, roofing, windows and railing.

## NWR

Turnkey installer of energy saving roofing and coating technologies.

## nZero

Carbon management platform that accurately tracks carbon emissions 24/7.

### Northern Electric Power

California based with 10-year history of developing advanced solar power conversion solutions. Microinverter and rapid shutdown MLPE products.

### Nuance Energy

Modular solar ground mount and anchoring system with fast, easy installation.

### Orion Co-Gen

Combination solar and micro-cogen/CHP systems to offset facility peak demand charges.

### Orion Solar Racking

Turnkey solar carport and EV charging installer.

### OutBack Power

Designs and manufactures off-grid and grid-connected solar plus storage systems for energy independence.

### PV Pallet

Stackable, reusable solar panel pallet that minimizes product damage in shipping.

### Powers Solar Frames

USA-made solar carport structures with over 50 years of experience in field services and customized support.

### QCells

Hanwha Qcells is a major manufacturer of photovoltaic cells, headquartered in Seoul, South Korea.

### Quick Bolt

Wide range of innovative solar mounts for residential and commercial roofs.

### Quick Mount PV

American manufacturer of racking and mounting supplies for photovoltaic arrays.

### Revolt Group

Off-grid solar kits, systems and consulting services.

### Samsung

Samsung HVAC and Smart Home Technologies. Smart energy savings devices for today's home.

### Savant Power

Smart breaker system with software app that allows total control of home energy usage. GE Lighting, a Savant company.

### Setec Power

Full line of EV chargers, including fast chargers and mobile emergency charging units.

### Siogreen USA

Unique infrared tank-less hot water technology.

### Sol-Ark

Solar energy storage systems with battery-agnostic hybrid inverters for commercial and home applications.

## Solar Edge

Home residential inverters.

## SolarStack

Rooftop solar mounting system that uses adhesive instead of roof penetration hardware.

## Solis Inverters

String inverters converting DC to AC power.

## SMA

Manufacturer of solar inverters for photovoltaics systems with grid connection, off-grid power supply and backup operations.

## Stäubli Electrical Connectors

Formerly Multi-Contact USA, Stäubli develops electrical connectors for renewable energy, industrial and automation applications, power transmission and distribution, and e-mobility.

## Sun Maverick

Turnkey commercial scale EPC serving a nationwide customer base.

## Suntrac USA

Solar HVAC technology that saves 40% on building cooling costs.

## Tigo Energy

Worldwide leader in Flex MLPE (Module Level Power Electronics), designs innovative solar power conversion and storage products.

## Trina Solar

Manufactures, sells and does research and development on PV products, EPC and O&M. develops and sells smart micro-grid and multi-energy complementary systems and energy cloud-platform operations.

## TE Connectivity

Formerly Tyco Electronics, TE Connectivity designs and manufactures the electronic connectors, components and systems inside products.

## Unirac

Residential PV mounting applications.

## Zero Auditing

Complete Expense Auditing Service—Recovery of incorrect and over charging \$\$ from your suppliers.
